Town C

Examination: 2011-11-09  
Follow-up:

1501B	Patient identification	Prescriber identification
Lisa	Sullivan	Professor John Smith
1986-08-14	F	
Address 1:		First Inst
Address 2:		1
Big Town	30003	

Examination results: n/s

Sample Set	10010	Modality	Aspect
1	2011-11-09	Sputum	At home
Microscopy	Result Date	Type	Result
10010	2011-11-09	Light	ongoing
Culture	Result Date	Type	Result
DST	Result Date	Type	ATB Result
OtherID	Result Date	Type	Result

A Simple & User-friendly LIMS  
for TB Laboratory Network

## AT A GLANCE

- › Patient, examination, sample set, sample & result database
- › **4 TB diagnosis modules:**
  - Microscopy (light, fluorescence)
  - Culture (solid, liquid)
  - Molecular biology & LPA
  - DST
- › **3 HIV modules**
  - Rapid Test - ELISA
  - Viral load
  - CD4

## USER FRIENDLY

- › Easy lab performance tracking and follow-up
- › Report library (TB/HIV analysis, patient history, custom statistics)
- › Full logbook & results printing in PDF format
- › Data backup & export (CSV files, MS Excel compatible)
- › Customized data extraction with SQL query

## FLEXIBLE & SECURED

- › Different levels of use (national, regional, district, health centre, small lab) & privileges (admin, edit, view)
- › Secured data entry
- › Specific privileges for HIV results
- › Available as standalone software or server application
- › Local server or web server

## COMMUNICATIVE

- › **Multilingual:**
  - English, French, Russian, Vietnamese, Serbian
  - Easily translatable (full UTF8 support)
- › **Country customization**
  - Demographic data
  - Lab & prescriber names
  - Drug list for DST
